**Investment management style**

Portfolio Solutions Group builds and monitors asset allocation funds. Their objective is to maximize returns while minimizing risks. To achieve this they combine top-down modelling and bottom-up manager selection. Their top-down analysis provides insight into aggregate portfolio style drift, risk exposure and mandate gaps. Their bottom-up focus is on selecting managers who consistently add value by following a well-defined investment process.

**Fund objective**

To provide regular income with low volatility. This Fund invests in other Canada Life funds. Its primary focus is fixed-income investments, but includes a small equity component to increase returns over longer time periods. Its target mix is 75% fixed income and 25% equities.
